Mosquito control is everyone’s responsibility. Please educate yourself, spread the message and join us in controlling mosquitoes in your backyard. Below you will find tips to help eliminate the preferred habit of the mosquito.

**TIPS:**

1. Destroy or dispose of tin cans, old tires, buckets, unused plastic swimming pools or other containers that collect and hold water. Do not allow water to accumulate in the saucers of flowerpots, cemetery urns or in pet dishes for more than 2 days.
2. Clean debris from rain gutters and remove any standing water under or around structures, or on flat roofs.
3. Change the water in birdbaths and wading pools at least once a week.
4. Eliminate standing water around animal watering troughs. Flush livestock water troughs twice a week.
5. Check for trapped water in plastic or canvas tarps used to cover boats, pools, etc. Arrange the tarp to drain the water.
6. Contact Salem County Mosquito Control office when you notice a mosquito nuisance. 856-769-3255

The LAC Historic Log Cabin will be closed for the summer, but will be open again in the fall on the following Sundays:

- September 15 with Old Time Gas Engines
- October 20 with a Farm Day Theme
- November 17 with Fire Place Baked Pies

STORMWATER: Vehicle & Garage Tips

Your everyday activities can affect water quality. Help reduce the amount of pollution that flows into our waterways by following the tips below.

- Take your car to a service center to change oil or antifreeze. If you do change your own oil or antifreeze, do it in a garage, never on the street. Use a self-contained oil pan and discard the oil at the Public Works Oil recycling facility. NEVER discard oil, gas or antifreeze into a stormwater drain. Antifreeze should be discarded at a County household hazardous waste day.
- If you spill hazardous fluids, contain it immediately with rags or cat litter. Clean up the spill and properly dispose of the waste.
- Check your car for leaks, if you find leaks or drips, have your car repaired.
- Store hazardous materials properly to prevent spills. Store them in the original closed container.

LAC NEWSLETTER JULY 2019
PO Box 157
Hancocks Bridge, NJ 08038
